Sahil Chudasama

Flutter Developer
Ahmedabad, Gujarat, India

Summary

I'm a dedicated Flutter developer with 2 years of experience crafting high-performance, cross- platform mobile, web, and desktop applications from scratch to deployment. Skilled in Dart, specialize in building seamless user experiences with features like in-app purchases, Stripe payment gateway, and AI model integration. Notable projects include developing a chatbot in Flutter to enhance user engagement. I thrive on solving complex challenges, optimizing app performance, and delivering scalable solutions that drive impact. Passionate about leveraging AI and modern frameworks to create innovative apps, I'm always exploring new ways to push the boundaries of Flutter development. Let's connect to discuss exciting opportunities or collaborate on cutting- edge projects!
